

Amelia Hundt
South Portland

Hello,

I am a South Portland resident/home owner and mother of two small children, aged 2 and 4. We can see several tanks from our neighborhood and we often smell the fumes. I am writing to express my strong support for this bill, especially after attending the Stand Up to Stop Toxic Tank Emissions rally at the Kaler Elementary School and learning about the lack of government oversight to date. We love our neighborhood very much and do not want to move but we are deeply concerned about the long term health effects of these tanks on ourselves and our children. Thank you for your consideration.
