

Melody Brimmer  
Portland

I support LD 1541 to adopt Extended-Producer Responsibility (EPR) for Packaging, which is used around the world to save money for cities and towns and increase recycling rates. Portland has good recycling infrastructure and compliance, it is common sense to expand individual efficacy by increasing labeling clarity. This act will help citizens do right by our recycling programs, instead of having to wonder if our efforts are worthwhile.  
Thank you.
