I am writing in support of LD 1639, An Act To Protect the Health and Welfare of Maine Communities and Reduce Harmful Solid Waste.

Allowing out of state toxic waste to be trucked into Maine where it is either dumped or burned is a terrible idea and contrary to the spirit of the law. Closing this loophole is an act of self-respect for our state and an investment in a future environment where our children and grandchildren can thrive. Polluting waterways and the air with waste generated elsewhere -- for profit -- does not support the kind of Maine I want to live in or visitors want to enjoy on vacation.

Please vote ought to pass on LD 1639.
