

Desiree Vargas
Bangor

Goodmorning representative and committee,

My name is Desiree Vargas, I am a council woman of my Tribe Higuayagua Taino People of the Caribbean, a member of Bangor's committee of Diversity and human rights, and a cofounder of Racial Equity and Justice Org.

Please choose to limit waste in state and out of state. We cannot afford to have our environment and our bodies exposed to the impact of what all this waste could cause. Please make this decision not just for us, but for future generations. The tribes here to dot support this mass dumping of waste. We should follow their expertise since they have been caring for Wabanaki territory since time immemorial.

Thank you for your time.
