LD 1473

My name is Kathy Shaw, State Representative from district 88 and one of the co-sponsors of LD1473.

As a resident of Auburn and a farmer, I am acutely aware of the importance of preservation of our clean water supplies.. I rely on well water for my farm and crop needs and we are diligent in protecting our water supply..

I believe that there can be no guess work when it comes to our clean drinking water, and that we need to be ever vigilant in the protection of that supply whether private, but especially public. Our citizens depend on it and it is too precious a resource for us to gamble on it for our future generations.

Development should be discouraged around our public drinking water supplies statewide, there should be no negotiation on that aspect. There are too many unknowns now and in the future.

Thankyou for your attention and time.
