Northport

My husband and I are in our 70's and believe robocalls callers and scammers target us. We often get multiple robocalls calls throughout the day and especially at dinner time! Even though we have call blocker on our phone we get repeat robocalls calls several times in the same day!

These are extremely annoying and make us feel that we can not have a land line going forward but cell phone coverage is at times spotty.

This is a BIG problem! Please enact this legislation.

Thank you
