Thank you for considering LD 511 to help reduce robocalls. Everyone agrees they're a plague on our phone service. I'm especially concerned about the scams that so often target the elderly, such as my 87-year-old mother. Many of us have trained ourselves not to answer the phone at all, to avoid being subjected to the scams and sales pitches. As a result legitimate callers go unanswered. Please support this bill to help us return some control over our own phones. Thank you.
