RE: Testimony in Support of LD 815 – An Act Support School Decarbonization

Dear Chairs Lawrence and Berry, and members of the Energy, Utilities and Technology Committee,

I appreciate the opportunity to submit testimony in support of LD 815 - An Act Support School Decarbonization.

I am urging you to support this bill to assist our Maine schools in becoming carbon neutral. I believe this would be an excellent step towards moving our state forward on it's carbon reduction goals, while helping with the financial burden of such a task on our education system. Innovative technical educational programs for our school districts, such as this, are perfect examples of how we can creatively combat carbon emissions in Maine.

Please consider supporting this bill and other opportunities like these in the future.

Thank you for your time and consideration of this testimony.

Respectfully,

Jennifer Armstrong
Kennebunkport, ME
