

Dean Gallant  
Kittery Point

to: Energy, Utilities, and Technology Committee

I write in support of the proposed revisions to the charter for the Kittery Water District, which will enable those individuals who receive water supplied by the Kittery Water District to vote for KWD trustees and to run for the position of trustee. The current charter inappropriately restricts those privileges to individuals residing in an area much smaller than the area that receives water supplied by KWD. The proposed revisions are entirely consistent with the principles of fairness, representation, and responsible civic practice.
