

Barbara Britten
SHAPLEIGH

I'm not a scientist or electrician et al. I've been under windmills while they're twirling. They make a humming sound & they vibrate. I'm sure that will disturb any living thing under the sea. Maine depends on seafood & recreation given by the Atlantic Ocean. Leave it alone. It gets enough damage from trash. Let's not add to its demise. Yes to 'An act to prohibit offshore wind energy development.'
