

Wayne Delano
Friendship

Hello committee members.

My name is Wayne Delano a lobster fisherman from Friendship. I'm asking that you support LD 101. Support if this bill is crucial for our very survival. I've been fishing for 34 years and have never been so afraid. These proposed wind projects will severely impact myself and all fishermen. Please be aware I'm in support of renewable energy but not the oceans of Maine. Solar and wind on land makes much more sense. Please support LD101 and keep our renewable energy on land where it can be maintained much more efficiently and will not potentially devastate the Maine fishing heritage. Maine needs the fishing industries for its very survival let's not jeopardize one of the biggest industries in Maine with wind turbines in the gulf of Maine.

Thank you for your time. Feel free to call me if you have any questions. 207-542-6952

Sincerely
Wayne Delano
