

Kevin Glover
Owls Head

My name is Kevin Glover. I am 37 years old and have lived and worked out of Owls Head Maine my whole life as a lobsterman. I am in favor of Ld 101. I feel that we are not putting enough thought into the negative impacts of what large scale windmills will do to the gulf of Maine. As a person who has grown up in Maine, I feel we need to protect what we have in front of us and not industrialize the gulf of Maine. Lobstering is a huge part of Maine, the last thing we need as a state is to hurt businesses that are helping this state right now. I hope that everyone will take a long hard look at the impacts of windmills and see that the Gulf of Maine is better without them. Thank you for your time.
