

Jerod Kronholm  
Searsport

I am in favor of LD 101 An act to prohibit offshore wind development. Offshore wind development is not nearly as "green" as it is being presented. The State of Maine is has a global reputation of being conservationists, good stewards of the land and sea. Our waters have remained pristine, and should continue to be allowed to. We are playing a dangerous game by "selling out" our forests and coast. We must continue to support the incredible fishing heritage that we have, and it will continue to support us. Thank you.
