

Robert Rosati  
Livermore Falls

Dear Senator, Representative and honorable members of The Energy, Utilities and Technology Committee, we urge you vote Yes on LD 1619 Prohibiting Offshore Wind Energy Development. Maine's Fishing Industry, her marine mammals (Right Whales, Seals) that our Federal Government claims to protect, are in danger from wind turbines. The noise pollution is another negative factor with the wind turbines. More studies about how these turbines will affect The Gulf of Maine, her fishermen/Lobstermen etc. who make a living from our costal waters and our delicate Marine ecosystem need to be done..

Thank You,  
Robert Rosati and Family  
East Livermore,Me
