Testimony of Representative Stanley Paige Zeigler

Before the Joint Standing Committee on Energy, Utility and Technology. Good morning, Senator Lawrence, Representative Berry and distinguished members of the Energy, Utility and Technology. My name is Stanley Paige Zeigler, and I represent District 96 consisting of the towns of Belmont, Liberty, Lincolnville, Montville, Morrill, Palermo and Searsmont. I am writing to support **LD 1556 Resolve, To Create the Commission To Study and Recommend Financing Model To Increase Capital Investment in Renewable Energy, Clean Energy Technology, Energy Efficiency Projects and Jobs in Maine**

I am presenting this testimony in order to support Senator Carney's Resolve, LD 1556. I feel that we need to have an overview of the State's clean renewable energy programs and how we can fund them. I see this resolve as a necessary overview and feel we need to take the time to fully explore our energy future. We need to examine any gaps that we may have missed in populations left out, funds and possible energy sources.

Thank you for your consideration.
