In 2016 my electric bill started slowly creeping up month after month, suddenly in December Cmp came and changed my meters then my bill went from 1600kwh to over 3000kwh. I immediately called CMP to question my bill and what happened to my old meters. After a week I was told by Lisa a cmp higher official, the old meters were lost and that was the bill and I had to pay it. MPUC did an investigation and two weeks later the meters had been found. From there I was accused of having bad appliances, bad internal house wiring, I left the coffee pot on.....no one would help. Every bill I have received has 2500 to 5000 Kwh on it, there are bills with 5 meters with all different numbers for them, (I have 3 meters), Many mathematical errors. I have paid thousands of dollars toward the bills to never see any credits or the bill reduce. I have hired electricians to come check my house wiring and paid thousands in propane for each storm outage, we average 4-10 days quite often. I live in constant fear for the operations of my farm business wondering when they will shut me off and cause huge financial loss to my home and livestock farming business. At one point CMP sent a disconnect notice, once they spoke to the attorney's the shut off was stopped; they however asked to do an audit with their own auditor I agreed under the condition that I was to have my electrician install separate meters so we could do our own audit. We have heard nothing from cmp since, I believe 2+ years now. My current bills fluctuate from a \$225.00 bill (once) the rest over \$300.00 monthly. I am in arrearage to the sum of \$12900.00. I have been paying \$250-330.00 a month for years and I can never catch up. That back total includes all the billing errors and overcharges. The fear of what's going to happen next has caused health issues from the stress associated with having to deal with this company. I'm afraid of making this statement and how it's going to affect my personal account with Cmp and if they're going to come after me and shut me off, If they do I'm out of a place to live and my 20 year job. Please remove them. If something doesn't change I will be forced to close and sell my home. CMP is not good for the people of Maine.
