**Testimony in Support of LD 256**  
**An Act to Add Electric Bicycles to the Electric Vehicle Rebate Program**

Greetings members of the Committee on Energy, Utilities and Technology.

My name is Sue Ellen Bordwell. MY testimony supports **LD 256, “An Act to Add Electric Bicycles to the Electric Vehicle Rebate Program.”** I urge the committee to issue an “ought to pass” report on this bill.

Why does a 77 year old woman care about this issue? It is all about equality.

Why should those with income enough to purchase a e-vehicle and get a rebate while those struggling to purchase an e-bike not be eligible for a rebate? Both buyers are committed to the environment; the e-bike buyer also might be interested in saving money and a healthier lifestyle.

By passing LD 256, Maine is making a statement about its commitment to all economic levels and all transportation modes as we work toward cleaner air, less highway congestion and healthier lifestyles.

Again, I urge the committee to issue an “ought to pass” report LD 256.

Thank you’
