Brunswick

Thank you for this opportunity. I am in favor of LD1317 and I hope you vote to in favor. I periodically go to a DO and the has reached out to me to plead his case to Anthem. Anthem recently started denying a portion of his claim which has in the past been paid. He was unable to get anywhere with them for explanation. When I contacted Anthem they said all he needed to do was to recode and resubmit. The code he was using is not payable by them and he is not allowed to bill me for it either. Effectively he needs to decide he is doing something else to me if he wants to get paid. This seems underhanded and arbitrary, effectively cuts his pay, and seems to me is forcing the provider to dictate the type of medical service being provided to me, not the doctor.
