

Audrey Parks
Carrabassett Valley

This bill would be a huge help to our patients. When patient get mail from their insurance telling them to come to the "affiliate pharmacy" they are confused and very destressed thinking they have to not only change pharmacies but drive 30-55 miles each way to the nearest pharmacy on the list in the communication. It causes our patients a lot of confusion and destress.

This bill would significantly reduce their confusion and make is easier for them to understand their insurance and their freedom of choice.
