

RALPH DEAN
FREEPORT

I most strongly oppose LD 1045, which will be:

1. Unaffordable
2. Unfair - Payment amounts are unknown and will be arbitrary
3. Unfair - Would remove people from coverage they like. I have Tricare for Life (I earned it with nearly 30 years of military service) and do not want to lose it. Many others with employer-based coverage fell similarly.
4. Unnecessary - People want costs to come down, not another government attempt to "expand" coverage. We already have the ACA, Medicaid, etc.

Please drop this horrendous power grab now. Thank you.
