I am writing in support of LD 1045, An Act To Support Universal Health Care. As a retired teacher who has watched our state struggle to respond to a public health crisis under the patchwork of unaffordable health care available under the ACA, I urge legislators to act now. Waiting for a federal government beholden to corporate interests who profit from people's ill health to act is futile. You can act on behalf of Mainers now and get people the health care they need in order to feel safe returning to work, school, and public life.

During my campaign for the US Senate last year, no other issue stood out as top priority for voters in Maine. They told me time and again: we need universal health care NOW. These are your constituents and they are counting on your leadership. Please vote "ought to pass" on LD 1045.
