Dear Honorable Members of the Maine Legislature,

I wish to voice my opinion and concerns regarding:

LD 616 -An Act to Protect Health Care Professionals Providing Reproductive Health Care Services

LD 616 is simply a sham alleging *discrimination* based solely on provision of reproductive health care services against health care providers by their malpractice insurer. The definition of discrimination is “Treatment or consideration based on class or category, such as race or gender, rather than individual merit; partiality or prejudice” (American Heritage Dictionary).

If a provider does not like the terms of their malpractice insurer, they can purchase another plan. This is a preemptive, legalese loophole playing on a divisive term like *discrimination*, when no such violation is occurring. This is preposterous and this Pandoras Box should not be allowed to open. It is one more erosion against the lives of the unborn.
