LD 616

I am writing in support of LD 616. Health care providers should not be criminalized for helping patients and carrying out the duties for which they have been trained in a medical setting, whether they reside in Maine or reside elsewhere and of necessity travel to Maine for abortion services. I am appalled at the Supreme Court's decision that has resulted in chaos for so many people – health care providers and patients seeking care – and those who might assist them.

Please pass this Bill and keep Maine a place where reproductive health care is not against the law!
