

Maverick Correia  
Windham  
LD 2115

My name is Maverick and I work as a CSR at a vet clinic in Windham, Maine. I oppose the legislation intended to restrict Care Credit deferred interest financing. Over the last year and a half of working at my clinic, I have seen Care Credit help many of our clients that need help financially in the moment when their animal is sick. I had a couple of instances where an animal was suffering and the option of Care Credit helped those clients put their animals to rest. Also, as a receptionist, I explain the terms to the clients to help them understand before they sign up. We do not make any profit off of our clients when we tell them to sign up for Care Credit, this is a tool used to help clients pay for their pets health and well being.  
Thank you for your time.
