LD 227

The LD 227 Ought Not Pass...this bill is putting our children at risk physically and mentally ! It also infringes on parental rights and will not allow parents to protect their children from rapists, pedofiles and sex trafficking. This bill would actually be putting children at higher risk. If a child is raped or victims of sex trafficking and impregnated, this bill would allow anyone including the perpetrators themselves to take said under age child to get an abortion, without parents consent and also allowing said perpetrators to get away heinous crimes of ie sex trafficking, rape leaving our children vulnerable and scarred for life. This bill is another overstep of the government to infringe on our rights and ought not pass. We the people should have say where a our tax dollars are being spent and I want no part in this disgusting bill that is going to cause so much harm to our children and the future of this country. Children should not be able to make decisions as horrific as these as their brains are not fully developed or capable to comprehend the consequences and impact it will have on their lives to ie change their sex, have abortions. Many children and even adults end up committing suicide because they can't deal with the after effects of what this does to their physical and mental health. It is pure insanity to say a person cannot, vote, get a license, or drink alcohol or smoke cigarettes unless they are of legal age adult and then say it ok for children to make these horrifying choices on their own. I as a tax payer should never be forced to pay into something that is against all I believe and stand for. I pray please if you care about our children and our country and future LD 227 Ought Nor Pass. I pray the scales are removed from all eyes and that all see the true evil of this bill it is not in the best interest of our children or our country. Please I beg of you do not pass LD 227!
