Dear Senator Bailey, Representative Perry and Members of the Health Coverage, Insurance and Financial Services Committee,

LD227, An Act Regarding Health Care in the State, is a symptom of a society that has abandoned its moral compass. Most struggle to understand how our tax dollars could cover the cost of killing unborn children. Most struggle to understand how the deliberate mutilation of children, is allowed. Most struggle to understand how Maine tax payer money would be used to fund the mutilation of children from other states, let alone our own. Most would struggle to understand how it is that these modern day Dr. Frankensteins can do such horrible things without parental consent. Most would also struggle to understand how we even got to this point at all!

The deep-seated problem we really face is a Godless society that is driven by undeniable evil. There is very little about the process of this legislation that isn't corrupt. Our wonderful state of Maine is unfortunately embarking on a Godless path of marxist ideology that seeks to destroy our moral fabric.

Romans 1:28-31 says, "And just as they did not see fit to acknowledge God any longer, God gave them over to a depraved mind, to do those things that are not proper, having been filled with all unrighteousness, wickedness, greed, and evil; full of envy, murder, strife, deceit, and malice; they are gossips, slanderers, haters of God, insolent, arrogant, boastful, inventors of evil, disobedient to parents, without understanding, untrustworthy, unfeeling, and unmerciful."

Please, if you have an ounce of moral decency, vote OUGHT NOT TO PASS for LD227.
