

Jennifer Bedford
Sanford
LD 227

Representatives,

I ask that you vote OUGHT NOT PASS on LD 227, If you have any morals or ethics in your body. Adults should be the only ones allowed to decide to have these types of surgeries, although adults over 18 wanting this should have a psychological evaluation first because this issue really is all about mental health, nothing else. God created us the way we were intended to be. This bill is disgusting and if you vote for this bill, you are disgusting too.

I agree with Representative Reagan Paul when he said,

“This legislation would make Maine the most anti-child, anti-family, and anti-science state in the nation and if you want people to move here, you should vote OUGHT NOT PASS.

Thank you.
