

Jennifer Bourque
Bridgton
LD 227

I oppose LD 227 for it puts children and families at risk. By denying the parent's legitimate role in their children's lives you are destroying their relationship and taking away the freedoms of the families. This bill will allow for human trafficking and other child endangerment. Studies show that those who are adults that have gone through transition early in life are truly showing signs of the devastation.

In terms of economics, you are destroying any hope of businesses coming into the state as employers will have to grapple with these issues.

Overall, this bill will only lead to the state's economic, moral and ethical decay.
