This is a terrible bill!!! It will turn Maine into a sanctuary state that will allow the butchering of a CHILDS BODY PARTS. If that's not an enough this allows it to be done without the parents involvement. It's legalizing kidnapping!! The people who are submitting these bills, should not even be allowed into the halls of Congress. I had an individual say she was going to put a chess binder on my child and would do it without me knowing it. She said it explicitly three times right in front of the school board and the school board did nothing about it! No Organization should give themselves the right to touch another child in their private areas without the consent of parents. This is insane it needs to be stopped immediate!!
