As a senior citizen, tax paying home owner in Rockland I am STRONGLY opposed to this bill. Those of us who are paying attention are appalled at what Governors are allowing their "sanctuary cities" to become and let it be known WE THE PEOPLE do NOT want to follow in their footsteps. We refuse to be a dumping ground for these causes and being choked to death with taxes to pay for it all! We have a Governor who is destroying our way of life and we have had more than we are willing to take. I expect this bill to get torn up and burned!
