

William Donaghy
Washington
LD 227

I am asking you to consider the consequences of passing LD 227. Abortion, that is, the murder of an unborn child, is already legal in this state. Abortion up to birth! You can legally murder an unborn child 5 minutes before he or she is born! And to declare this a sanctuary state for transgender surgeries, to allow someone to bring a person into the state possibly without parental knowledge or consent to be physically mutilated because they suffer from gender dysphoria instead of being counseled and given proper medical care and treatment is just too shameful to ignore.
