

Larry Dwight
Kennebunk
LD 227

I am Larry Dwight, I live in Kennebunk, Maine and I am here to testify strongly against LD 227, An Act Regarding Health Care in the State.

Children are not old enough to know what therapy they need. We need to be compassionate against radicalization of non-scientific treatments to irrevocably change the human. These laws are not allowed in any European country, because they are not supported by the science.

Please do not support these radical insidious laws. Lawmakers ought to be ashamed of themselves for listening or promoting these false theories.
