First I would like to say how outraged and disappointed i am at the Maine government. Your job is to help and support THE people of Maine and do whats best for this state.

How dare you think you know more than a child's parent! ( you don't)

How dare you think kidnapping is a legal right! (last i heard, kidnaping is illegal)

How dare you think taking an unborn baby's precious life is ok!

It saddens me that the State of Maine,

1. tried to pass this bill behind close doors
2. thinks this is what is best for the state.... i mean, the country
