LD 227

Please note this serious concern with LD227. This is far too extreme for Maine! This is state sanctioned kidnapping and will blow the doors open for more of the same. In a world where we are just starting to make progress with fighting issues of trafficking, this feels like a blow to the progress. Don't walk us backward on this fight. My kids - all kids! - mean too much to me for me to support such a heinous plan. Please stand in opposition to LD227.
