LD 227

I respectfully ask you to vote "no" on LD 227, An Act Regarding Health Care in the State. This act specifically mentions abortion, which is the killing of an unborn baby in the womb of its mother. Each baby is not a part of its mother's body, it is a separate individual. Each person has a right to live. Abortion is taking the right of the baby to live. Abortion is murder. To make the murder even worse, LD 227 allows that young ladies be taken from the safety of loving family in their state and brought to Maine to kill their baby. This is evil and I beg you to vote down LD 227 and save the lives of these precious children.

LD 227 also allows for "transgender care" - a surgery to change the sex of a person, specifically a minor. This is to say that God didn't know what He was doing when He created this young person, and their sex needs to be changed. First of all, to do this is horrendous. Secondly, for this surgery to be performed on a minor - they are not of age to make their own medical decisions. LD 227 also allows for the minor child to be kidnapped from the parent with custody and authority, so this surgery may be performed in the State of Maine. This is a direct violation of the rights of the parents with custody and responsibility.

Please, please vote "No" on LD 227.
