Let me tell you about Emma. Emma was 13 years old when her uncle raped her for the first time, she was too scared to tell anyone because he told her he would do the same thing to her little sister if she talked. So she kept quiet. She was 14 when she first got pregnant. And her uncle brought her to clinic to have an abortion. Because the clinic did not have to notify parents. Emma had her baby aborted and abuse continued. Emma was 16 when she finally took her life. There are many children who are being abused over and over again, and the people who supposed to protect them by being kept in the dark, all because some disillusion that parents don't understand their own children and the children need to have protection against their parents. Stop separating families! Stop breaking families up! Stop protecting abusers! Get out of the way of the family unit. This is none of your business. And you have no right to be a part of this!
