LD 227

Please vote ought not pass on bill LD227. Maine is a beautiful state and a representation of simplicity and purity in our nation. If we pass this bill we will taint simplicity and purity. The people of Maine do not want the blood of the innocent on our hands where parents and peers will look down on Maine for its filth in legalizing kidnapping, minor mutilation, removed parental rights to minor children and stripping families of dignity. If LD227 passes it will harm our tourism, it will harm our businesses, our schools, our communities, our reputation and love for Maine. Maine is a place of vacation, joy, peace and the way life should be. Maine is a respite state for families to come and enjoy. Maine is not a state where people fear to come or refuse to support in tourism. If this bill passes it will radically change the national view and local view of our great state for the worse. We'll be know not for our welcoming communities where families are respected but will be known for the destruction and division of families and mutilation of minor children without parental consent and disregard for mothers and fathers who love their children and want whats best for them. No one knows a child better than their parent. How dare we be a catalyst in familial division. We should be honoring families not tearing them apart. PLEASE VOTE OUGH NOT PASS ON BILL LD227. Have we really lost all morality as a state? Maine people do not want LD227.
