

Edward Hikel

LD 227

I am writing in opposition of LD227.

A hunter must be certain they are firing at an animal and not a human. If they are not sure, they will not take the shot. They are cautious as to not cause some unintended harm.

Our under age community cannot legally vote, possess or use tobacco and cannot get married without parent's, legal guardian or custodian's permission. This bill will allow the underage to make a decision that is on the same scale as other decisions that are illegal until they are 18. I'm afraid of the unintended harm this will cause.

Let's pause and learn more especially as other countries are adopting laws that prohibit puberty blockers in minors. Please think about your vote and ask yourself if you vote to support could there be unintended harm which you would be responsible for. Please do the right thing.

I boldly ask you to vote "Ought Not to Pass on LD 227.
