

Jadon Jackomino  
Rockland  
LD 227

Dear Senator Bailey, Representative Perry and other members of the legislative health care committee, I am Jadon Jackomino of Rockland Maine and I am testifying against LD227, An Act Regarding Health Care in the State of Maine. This Act is detestable, A parent has a right to insure the safety of their children and their decision making, You wouldn't put a child in a judges position so why should we let them make a decision that changes their lives permanently, Someone in their twenties still hasn't developed there prefrontal cortex fully yet, if we approve of this, we are only part of the problem.
