LD 227

Thank you for hearing my testimony. I strongly oppose this bill LD 227. I have lived in Maine my entire life and cannot believe a bill of this content is even being submitted. We the people do not want to pay for nor support the kidnapping of under age children, bringing them to Maine to have transgender surgery or treatments or abortions without their legal parents or guardians permission. Taking rights away from parents and leaving no law enforcement input or legal recourse is immoral! This bill and what it contains is broad and evil opening the door to our state to every other state. This bill is not protecting our children and grandchildren or the next generation.

I urge you to vote "Ought not to pass on LD 227."
Sincerely,
Linda Jones
