LD 227

My testimony for LD 227 - I do not agree to let this matter pass into law for the state of Maine because I find it is against our human rights. Our children are at risk already in our public schools in Maine and this bill wants to shut the door on parents who have every right to know what is happening to their child while in a public school. This bill is very dangerous for many reasons and should be voted down. It violates human rights and the US Constitution. It takes away the sovereignty of the individual and forces them into a situation they might not agree with. This bill is dangerous and perhaps the people that pass it are just as dangerous.

Please vote this bill down and protect the innocence of the children of Maine and protect the rights of parents as well.

Full term abortion is atrocious and murderous but the lawmakers in this state are looking the other way. Dangerous lawmakers. I rest my case. **DO NOT PASS THIS BILL.**
