

Tony Maker  
Machiasport  
LD 227

I ask, no ask is not strong enough of a word. I beg that you soundly reject LD 227. As a parent and an educator for 35 years, this bill would only further the divide between common sense care for our children and an agenda that will allow our next generation to be on the path to no return. This bill goes beyond the pale of protecting the most vulnerable in our society. Please listen to your conscience and the people of Maine and reject LD 227. Enough is Enough.
