This draft bill is horrible! It takes away the rights of parents to raise and protect their children and the rights of children to benefit from the values and wisdom of their parents, guardians, or care-givers. It prevents our law enforcement officers from protecting children. It will make Maine a Sanctuary for all sorts of horrible and hideous abuses of children. Aren't any of you parents? Have you no feelings for children? Don't you understand that they need love and guidance from Parents and those that love them not the "State" They are our children, not the States. I beg you to vote no on this bill.

In addition, The way this draft bill has been hidden from scrutiny by the people of Maine under the ruse of a "concept bill" with an innocuous title is immoral and corrupt. What is the sponsor afraid of, sunlight? This bill must not become law!
