

Justine Morse  
Auburn  
LD 227

Representative Shaw and Senator Brakey, and members of the Joint Standing Committee on Health Coverage, Insurance and Financial Affairs, my name is Justine Morse, and I live in Auburn, Maine. Thank you for the opportunity to address the Committee.

I oppose LD227 because it endangers our children and infringes on our parental rights. Along with prohibiting any state or parent to take legal action against kidnappers and medical professionals taking your child to perform a gender change or abortion against parental will. This not only affects the state of Maine, but the United States at large. As well as allowing medical practitioners who practice "reproductive health care" to come practice in Maine, even if they have expired or issues with their licenses.

Thank you for your consideration, and I urge you to please vote Ought Not to Pass.
