LD 227

Senator Bailey, Representative Perry, and Committee Members. I plead with you to kill the bill, LD 227, asking you to act in humble conscientiousness, true accountability with dire responsibility to protect Mainers, Maine's Health Systems as well as Maine's Educational, Legal and Economic Heritage and Constitution, voting OUGHT NOT TO PASS on this horrendous bill!!!!!!

Please uphold your civic and ethical duties to the people of our wonderful state and hear the majority VOICES of concerned citizens, testifying in droves, not merely "the fringe minority," and heed your responsibilities as elected officials to do the WILL OF THE PEOPLE of the ENTIRE STATE of MAINE, NOT just the ELITE or the LOBBYISTS or SPECIAL INTEREST GROUPS, pondering the enormous consequences that will bloody your hands if this audacious, irreverent, heinous, destructive and illegal and un-Constitutional legislation should pass, while also knowing the costly and disabling, deadly long range outcomes it would produce in Maine and echoed throughout the Nation. The financial implications and burden to the health care system in our state would paralyze ME, not to mention burdening the actuators of health insurance who would inevitably determine that insurance premiums would escalate in higher premiums, unattainable, beyond even the "UNAFFORDABLE CARE" act costs that it already is! There is NO NEED for this legislation, nor is there any logical reasoning for creating mini "Mendeles" in ME, for which LD 227 would allow unaccountability and special "health care" provider protection from legal proceedings for liability, enabling the practice of quackery, unscientific medical modalities, fostering child abuse and human sex trafficking and, ultimately, evil mutilations, dismemberments and disfigurements, with permanent, irreparable damages. This crime would also be blindly leading Maine into oblivion while parroting/regurgitating the same justification for doing such diabolical human experimentation on babies and children, as was done in the NAZI regime in World War II. This is not humane. This is not ethical. This is not Maine! These precious, uninformed and vulnerable children who would be victimized by this legislation MUST BE protected by parents, by you, by all reasonable persons, and REMAIN the responsibilities of their own parents who care for them. Children are not brought into this world to be wards of the State but are wonderfully made progenies of their PARENTS, paid for and lovingly protected by them for the well-being of their children. It is a God-given right and Constitutional right for parents, NOT THE commie VILLAGE, to raise and care for their offspring, their seed created from XX and XY contributions as a mom and dad, female and male, genetically UNCHANGABLE. It is the parent who is bound by LOVE and devoted duty to rear and help their children grow into healthy, whole, sound adults guiding them in good principles with hope for a future and not a prospect of life-long misery and pain. These children do not need to be ripped out of their mothers' wombs, fully formed and fully capable of life outside the womb. Nor do they need to be hijacked, kidnapped or corralled into Maine from other states in our Nation to be subject to horrific mutilation by your choice to make money over creating a truly safe and healthy place for our children, our future hope for societies, to grow up in, as per the Maine motto: the way life SHOULD BE! Besides any of these points, presented through the heart of a mother, through my obligatory duty as a primary health care provider/family nurse practitioner/nurse midwife - TO DO NO HARM and call my fellow colleagues into question who dare do! - and as a tax-paying citizen, a born and raised Mainer from the County (Hamlin, Maine), where family values are held high and honorable, I remind you that this LD 227 is entirely UNCONSTITUTIONAL, against Federal Law A.K.A ILLEGAL, and enables human trafficking of children, not to mention, ABORTION IS A SATANIC SACRIFICE, but of which you likely already know, and if you don't, you are duped by their blood rituals intended to blind you to this fact of satanic/witchcraft spells and incantations using the blood of babies and the destruction of lives to numb those enslaved to (or possessed by) their evil ideologies and agendas

to reduce the population of mankind, destroy families, kill human beings, and mutilate and maim children, soon to be adult people for the duration of their lives, if they survive suicidal ideation and attempts - proven SCIENTIFICALLY, true science. This bill strips children and parents of FREEDOMS and RIGHTS, guaranteed by the Founding Fathers of our Country, and STATE. PLUS, FOLLOW THE MONEY: No more taxation to Mainers, of which this bill would create more extreme financial hardships by taxation WITHOUT REPRESENTATION to ALL Mainers, endorse a Mafia State and subject those who dissent to this injustice to fines and imprisonment, and usher in an utterly horrific way of life for Maine, and NOT the WAY IT WAS MEANT TO BE! Dirigo! No, HELL NO! to LD 227!
