

Mary Pray  
Brunswick  
LD 227

Honorable members of the Health Coverage, Insurance and Financial Services Committee, I am submitted testimony in opposition to LD 227.

From my reading of this 21-page bill, so hastily brought to your committee with little time for public input, more time is needed to understand its long-reaching affects.

I also am concerned about parental rights being usurped at a time when European countries are being more cautious about transgender surgery and drugs for minors. Please give these concerns your thoughtful consideration.
