

Susan Rowland  
Lisbon  
LD 227

Senator Bailey, Representative Perry, and members of the Legislative Health Coverage, Insurance and Financial Services Committee, I am Susan Rowland, I live in Lisbon Maine, and I am here to testify strongly against LD 227, An Act Regarding Health Care in the State.

Please vote no to this nefarious bill, in which children are terminated up to birth and those that are safely born are then subjected to life altering bodily mutilation without the consent of their parents. Not only are you NOT protecting children but you are putting out a welcome mat for human traffickers.

Maine will no longer be a family friendly vacationland but a destination for family destruction.

My husband and I have had a small business in Maine for 36 years and raised 4 children here... having seen the dirty politics displayed over life issues we are considering leaving.

Please restore integrity to your profession and to our state. Reject LD 227 and its tragic consequences .

Thank you for your time and service .
