

CAROL SLADE
NORTH BRIDGTON
LD 227

Dear Sirs:

I am strongly opposed to the passing of LD 227 and making our state a sanctuary state for bringing children over state lines for an abortion or to have a gender change. Anything that happens to a child's body cannot be undone and is wrong to act on a child's desire who thinks they want something when their brain won't even developed fully until their twenties. The oath that doctors take is "Do no harm". This bill goes right against their oath.
Please do not pass this bill.
