LD 227

Dear Sirs:

I pray you don't allow LD 227 for Maine to become a sanctuary for people aborting babies and operations for transgender.

No matter what words one uses for abortion, it is still ripping the baby from its safe womb by killing the baby.

Children, especially, whose brains do not finish developing until they reach about 25 yrs. old, should not be persuaded to or be allowed to make a traumatic decision as to changing their gender. They should be provided mental health counseling instead.

Sincerely,

C. Marie Tupper
