Leftist media keeps pushing the LGBT narrative to confuse children and sicken our society. The western world is the only place where this filth is tolerated. We need to stand against the pedophilic degenerate cult. An Islamic nation would never tolerate this,

Its disgusting to see leftist cheer for drag queen shows with kids, to convince children they are the wrong gender and encourage surgical genital mutilation. Leave the kids alone. How can regular people who just want to be left alone coexist with a group that literally want to rape and kill children. If liberals cant abort babies theyll try to rape them.

What is a woman? The Cambridge dictionary says-A woman is an adult female human being Does taking hormone blockers make you a woman?

Does castrating yourself make you a woman? Does dressing up make you a woman? Does believing you're a woman make you a woman?

No doing all of these things just makes you a mentally ill man. It's wrong for society to cater to a seriously ill minority of people and expect us to go along with their delusional thinking. When someone suffers from schizophrenia we don't reinforce the delusions as truth and we shouldn't for transgenderism either. How can we take anyone seriously when they don't even know what gender they are?

Transgender women are MEN.

Transgender Men are are women

Pills, surgery and imagination won't fool scientists. Your DNA wont change just because you have an unhealthy fascination. Pushing this stuff onto children is child abuse and we shouldnt condone it. Why do children need to learn about gender pronouns when they can't even tie their shoes? Why are teachers telling students not to tell their parents about the topics of discussion in school? Why can't liberals leave children alone? If teachers, the media, and society did not push the transgender narrative we wouldn't have so many confused people. The LGBTQ+ culture is a cult. The mentally ill minority must not be allowed to rule over the rest of us. Where do we draw the line? Child castration, Having children taken from parents for not going along with the mob? Having sex offenders teach children? At this point nothing is off the table for the degenerate woke leftist cult. For being a group that wants acceptance they are quick to advocate for violence against anyone who disagrees with them. We will never cower in fear of terrorists. We will not surrender our country to leftwing scum . Only 2 genders exist and no amount of tantrums will change that. Sometimes the truth hurts and some of you need to hear it.
